HOW TO USE TALK IT OVER:

Talking through the message during the week will help you grow in your faith. You and your Neighborhood Group will be able to turn Sunday's message into real life application points. In your time together as group you will be accepted, supported, known and developed. At each group gathering there is an opportunity to share what your learning or just sit and listen from others. You will be cared for and care for others in the group. In addition you can share prayer requests and have the chance to pray for one another. Take a few minutes to look over some of the Talk It Over questions. As a group you may decide to talk about one of these or all of them.
